Grading Policy

- **Final exam (week 14)** **40%**
- **Quizzes (throughout the semester)** **20%**
- **Assignments (3, on the day of discussion)** **20%**
- **Discussion participation** **20%**

Assignments

- find (relatively) current information through online news
- relevant to the discussion topic of the lecture
- loosely based on policy analysis and debate in the text book
- and write short essays (approximately 600 words) based on the news.
- And share it with the class
- Scores are individual
  - Assignments (15%)
  - participation (15%)

Academic Integrity

- *Plagiarism* is a very serious offence and will not be tolerated under any circumstances.
  - You must appropriately acknowledge your use of another's work.
  - Putting a list of references at the end of your paper is not enough: your essay must contain in-text citations each time you quote information, results of research, and arguments that you took from other sources.
  - If you are in doubt as to the right way of referencing, consult the instructor BEFORE the submission, NOT after.

- In addition, any form of cheating in exam or in preparation of term-paper will result in scoring 0 for the assignment or exam and could lead to further disciplinary actions.

Meet the Entrepreneur:

Mr. Sohel Ahmed,

Managing Director,

Grameen Shakti

A Talk on

Social Business, Innovation & Entrepreneurship

by

Mr. Sohel Ahmed

Managing Director, Grameen Shakti

Date & Time: September 12, 2018

12:10-13:50

Venue: F102 (Dong Xia Yuan 102)

About the Speaker

Mr. Sohel Ahmed is currently working as the Managing Director of Grameen Shakti, looking after the overall activities from policy and operational level to local and international liaison and coordination. Grameen Shakti is the most successful organization participated in the Solar Home System (SHS) program in Bangladesh, installing more than 1.7 M SHS, emphasizing on Environmental protection, Financial Inclusion and Women Empowerment. He has been working in the field of Renewable Energy for over a decade, having experience of modelling and managing solar portfolios that includes Solar Home System, Solar Irrigation System, Solar Drinking Water, Solar Mini-Grid and so on. These all includes an element of Social Business, in form of social inclusion, adding value to the socio-economic bottom line.

Sohel has the experience of working at the field of Carbon Emission Management, leading the CPDS (Carbon Project Development Service), serving to the local industry for CDM (Clean Development Mechanism) project consultancy. He also engaged in Impact Assessment study focusing the local large solar projects delivering energy to the poor and pro-poor.

In recent years, Sohel has been intricately involved with SDG implementation, that involves winning and implementing the project awarded by UNDESA. He is also participating in different local and global forums/workshop/seminar as a panel speaker for sometimes, that includes sessions organized by Asian Development Bank, World Bank and United Nations.
